

Done Neatly, Promptly and at reasonable rates.

**Items of Interest.**

A lady crusader in Bayruss, O., has been paid \$85 for singing hymns in front of a bar-room.

It is estimated that it costs New York a considerable sum of money—\$1,000,000 per year for summer pleasure.

There is an old maid in Lowell, Mass., who shows the documents which prove that she has refused over four offers of marriage.

An interesting little boy, timid when left alone in a dark room, was overheard recently by his mother to say to his loneliness, "Oh, Lord, don't let any one hurt me, and I'll go to church next Sunday, and give you some money."

A boy six years old, having been much lectured by his father on the truth of the story, crying when any calamity happened, checked the paternal grief on the other morning by saying: "Hark! Bolton cried nearly all day; 'cause his father died; but if you should die, I wouldn't cry a bit."

Marshall Soult once, showing the pictures he stole in Spain, stopped before one and remarked: "I value that picture very much; it saved the lives of two estimable persons." An aid-de-camp whispered into the listener's ear: "He threatened to have them both shot immediately unless they gave up."

Death from the bite of a tarantula in

One of the most frequent occurrences in Scotland has been the one occurred there recently from the same cause. In Sutherlandshire, a little girl of four years was in a field hunting for birds' nests, when she was bitten on the leg by an adder, from the effects of which she died forty-eight hours afterwards in great agony.

Paper flour barrels are being made now. They are said to be air-tight and water-proof, to weigh much less than the ordinary wooden barrels, and to be much stronger and more durable. One of the manufacturers of these barrels in five years every barrel of Western flour will be sent East in barrels made from the straw the wheat grew on.

The Troy Times tells the story of a boy thirteen years old, Lewis Smodoff by name, who, a week ago, saved one of his little sisters from drowning, a few days later saved his two other little sisters. Referring to the latter he says: "I don't know how I did man. They were almost gone. I reached them, and this time I had help, but I had to get them ashore, a, a, a, I did just in time."

The amount of timber growing in Ulster county, N. Y., is somewhat astonishing to a person who has never traveled through the wooded region. In the town of Denning, there are upward of 80,000 acres of good woodland.

The following is highly commended by those who have used it: Dissolve a bushel of salt in a barrel of water and with the salt water slack a barrel of lime, which should be wet enough to form a kind of paste. For the purpose of a disinfectant, this home-made chloride of lime is nearly as good as that purchased at the shops and droghs. It is free from sinkers, and will last, gutters, and other unclean places in this way. It is a great tickle to the flurries.

**Nellie Grant at Home.**

The President and Mrs. Grant have received several letters from Mrs. Sartoris, writes a Washington correspondent. Mr. Sartoris's only sister, a married lady, met him and his bride in Liverpool and accompanied them to London, where, Mrs. Sartoris writes, she enjoyed herself very much. I stay, however, was brief in London, her husband and herself going immediately to the Sartoris country seat, where the bride and groom have been given a cottage on the estate.

they are finally settled in their new house, albeit a small one, called a *chateau*, and Mrs. Sartoris writes that "the place is covered with roses. Remembered the extravagant wealth of her *préaux* and the large number of her *préaux*," she has purchased a horse from her husband and herself after stowing away her possessions. No gayeties proffered the young people by the groom's parents, who are still in duellion on account of the loss of the eldest son last summer, who, as often been stated, was killed by a fall from his horse. Quite recently the grief has been renewed by the death

most intimate friend. Mr. and Mrs. Algeron Sartoris when they left Washington expected to return in a year the furthest, and perhaps as early as the fall. The President and Mrs. Grant do not contemplate visiting their daughter until after they have ceased to hold their present high position. The English aristocracy has studied and avoided, and evidently will continue to consider that to be the daughter of an American President is a patent of nobility.

---

**A New German Turpido.**

The *Borerszeitung* says that the German *Volksrecht* has decided to add

new kind of torpedo, which can be moved about while under water from the shore. The weapon consists of a long hollow cylinder, containing, besides a fulminating powder, a sufficient quantity of air to enable it to float. It is moved by means of electric currents passed through wires which connect it with the land, and by an apparatus also fixed to the shore. The speed of this torpedo can be raised or lowered at will, and it is capable of exceeding that of the swiftest ship. A detonating apparatus is attached to it in front, which explodes on contact with any solid body. A number of these torpedo-boats are also to be built, for the purpose of pursuing hostile ships.

attacking them unobserved. The boats will be propelled by a screw driven by hydraulic power, and will be steered under water by means of a compass. They are to be capable of performing a four day's journey at sea.

A Hint.—The *London Times* publishes this advertisement: "Should this meet the eye of the lady who into the 12.30 train at New Cross Station on Friday, May 15, with two boxes of whom was evidently just recovering from an illness, she may be pleased to learn that three of the four ladies in the carriage are the same as with the measles, and the health of the fourth is far from what her relatives

could desire.

FRIDAY, JULY 21, 1874.

**TOWN MEETING.**—At the meeting held in Weymouth town hall on Monday last, the report of the Selectmen on the winding and straightening of Richmond street was accepted. On the article in relation to Fire Department in Ward 1, the vote was in the negative.

The report of the Committee on the Celebration fared up \$3,227.32 as the expenses, and \$3000 was appropriated to defray the expenses incidental thereto and the publication of the address and proceedings. The committee were instructed to print as many copies as they deem necessary, and furnish them to the citizens at 15 cents each, through a show window.

Flowers for the Hollis street Mission, will be received next Thursday, by Miss Emma Sherman, Prospect street, Weymouth.

**NOT SOUTHERN.**—The poetic declaration that "music hath charms to soothe the savage breast" was greatly belied on the occasion of the free concert given last Friday night at Weymouth Landing, by Steaton's Weymouth Band, when a resident of East Weymouth unceremoniously buried a rock through a show window of the affair with a good sized blister on one of his hands, and another gentleman been brought in close contact with the offender's hand.

No. 30 Clark's Best Colored Spool Cotton, only 4 cts., at Williams, Weymouth Landing.

**Excursion.**—The citizens of South Weymouth contemplate visiting Silver Lake about the middle of August. May good days be more propitious than usual.

**DR. T. TORREY'S** place of residence is now at Amherst, D. C., and he wishes letters and papers to be addressed to that place. He proposes within a week or two to give our readers the cause and remedy of bleeding of the lungs, if he can get time to write up on this disease, from his own experience.

Large Aprons, just received, only 25 cts., at Williams, Weymouth Landing.

**SUICIDE.**—Mr. James Quinn, a workman in the shoe shop of Daniel Carr, on Mount Pleasant, Weymouth Landing, cut his throat Thursday evening last week, and died in a few minutes. He had eaten his supper, and returned to the shop when some fellow workmen, when he suddenly drew a knife across his throat, severing the jugular vein.

Print Wrappers, only \$1.00 and \$1.25 at Williams, Weymouth Landing.

**OUTDOOR CONCERT.**—The Weymouth Band will give an open air concert in Jackson Square, East Weymouth, on Thursday evening next, July 30th.

Feather Dusters, only 5 cts., at C. S. Williams, Weymouth Landing.

**ON THE SOUND.**—Through the courtesy of a member of the firm of Brown, Seavey & Co., fish dealers, of Boston, we were enabled last week, to enjoy a delightful sail water trip on Long Island Sound, in the first steamer of the line of the Stonington line. The steamer company have accommodated the travelling public with a day line through the Sound, the Rhode Island leaving New York at 1 P. M., and foot of 23d street at 1 P. M., giving an afternoon on the Sound, with its refreshing ocean breezes and charming views of the city of New York, and the Sound, and the Connecticut on the west. The Rhode Island is under the charge of officers of the highest efficiency. Capt. Jones not only being a competent officer of long experience, but one who makes his guests feel perfectly "at home" while under his charge; while Purser Hunt's courteous attentions to the anxious inquirers for rooms, etc., make him a universal favorite with the patrons of this line. Then, too, a seat at the well furnished tables of the dining saloon, which is located on the main deck, gives passengers the advantages of a plentiful supply of fresh air and views of the out-door scenery, and a discussion of the delicacies prepared under the direction of the chef. Jones, imparts a degree of satisfaction which can only be fully appreciated by a test of his skill in this department. The saloons, staterooms, and cabins of the steamer are fitted and furnished in a style of elegance and comfort unsurpassed by any steamer afloat, and with attentive waiters ready to respond to every demand, the trip is made decidedly luxurious.

In its surroundings. Particulars of the route may be found in the advertisement of the steamer in the column to which we invite the attention of readers.

Plaited Waists, at the low price of 50 cts., at Williams, Weymouth Landing.

**EAST WEYMOUTH, July 15th, 1874.**  
Editor of Gazette:—Dear Sir:—The game of ball played by nine from the factories of James H. Hays, & Co., and N. D. Canterbury, last Monday afternoon, drew together quite a large number of the town. The score ran quite high, but still it was a close contest, and one that kept the crowd very deeply interested. The victory rested at last with Canterbury's Nine as the following score will show.
